Lesson Plan

To insure proper planning and continuity of instruction, the Board requires that each teacher prepare lesson plans for daily instruction. To facilitate more effective instruction, lesson plans must be prepared at least 3 days in advance of the actual class presentation. The format for the lesson plan will be specified by the building principal and shall be reviewed on a regular basis. The plan book must be readily available when a substitute teacher is needed.

Careful planning should precede:

1. The opening of the school year;
2. The beginning of a project; and/or
3. The daily activities that address the needs of students.

Planning should include:

1. Statement of objectives;
2. Procedures and strategies to be used;
3. Organizational materials and instruction;
4. Materials – basic and supplementary; and
5. Evaluation of students.

Additionally, such planning must also include a means for providing remote instruction. Such remote instruction shall accommodate students who attend school remotely due to individual circumstances or due to a closure of the school.

Planning should be creative and challenging as well as continuous. Additionally, planning should be flexible in order to meet the needs and abilities of students. Due to COVID-19, such flexibility and planning shall be required to include a plan to transition to remote learning.
