Specialized Health Care Services

The Association supports and encourages appropriate inclusion. Full inclusion exists when student(s) with disability (ies) attend age appropriate regular education class (es), in their home school, for the same number of instructional minutes as their peers, with appropriate support and funding. Specialized health care (that includes catheterization, gavage feeding, suctioning or other services that require medically-related training) should be provided by qualified designated personnel trained in the administration of specialized physical health care. Certificated instructional staff shall not be required to perform these services unless they have agreed to such services.
